Clidata Future Plans

Prague, May 2013

Future Plans

- Joining RDATA_N and RDATA_R tables
 - Extension of RDATA_R with data type (IRREGULAR,REGULAR,...)
 - MIXING data in calculations and reports
- Bring new products into both WEB and Rich Java Client
- Generalized query system (To replace Oracle Discoverer in Future)
- Joining Clidata to Distribution database
 - managing incoming and outgoing files
 - archive files
- Quality control
 - Phenomena X Daily data
 - Intensity rainfall X Daily data
- Data audit – analysis who is working with what data
- Who knows, what will be the future?
